

The specialist for mobile space solutions

Storage container • Shipping container

Storage container

Stackable up to 3-high

Transport with truck

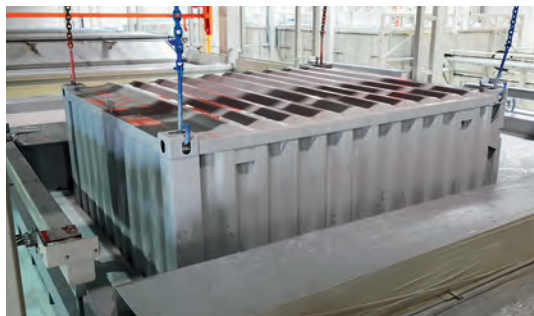

CTX storage containers are available in many different sizes and with plenty of layout options

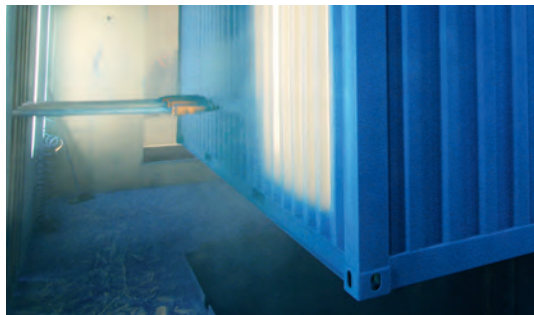

Different colours according to our CTX-RAL-chart

High degree of automation of the production

Cathodic electro dip paint grounding

Paintwork using powder coating

Ideal for storage on company premises or on construction sites

- Available with wooden or steel floor
- Galvanised locking bars
- Stackable up to 3-high
- Handling with crane or forklift
- Lifting payload up to 6.5 tonnes
- Storage up to 10 tonnes
- Various additional equipment

Type **LC 6'**

Type **LC 8'**

Type **LC 9'**

Type **LC 10'**

Type **LC 15'**

Type **LC 20'**

Storage containers with optimal paintwork

- Convincing quality:**
- Zinc phosphate coating and priming using **Cathodic Dip Coating**
 - Paintwork using powder coating
 - Choice of colours according to CTX-RAL-chart

- Your advantages:**
- More durable and environmentally friendly
 - High corrosion and UV resistance
 - Perfect paint-bonding

Choose your desired features

2 internal galvanised locking devices

4 internal anti-jemmy devices

Internal security lock

CTX storage containers with security fittings

Mobile garage

Light beams and distributor boxes with power outlets

Light switch

Recessed CEE connections

Ideal burglary protection for storing your goods

Storage containers with security fittings

- Special design with only one locking bar on the exit door, therefore quick opening and closing possible
- 2 internal galvanised locking devices for locking the stationary wing
- Internal security lock with lock cylinder, no padlock required
- 4 internal anti-jemmy devices

Burglary protection

- Ideal break-in protection for a padlock
- Made of robust, galvanised steel
- Pre-fitting in the factory or subsequently on site possible
- Can also be used in combination with the security package

Burglary prevention device installed

Electrical features for storage container

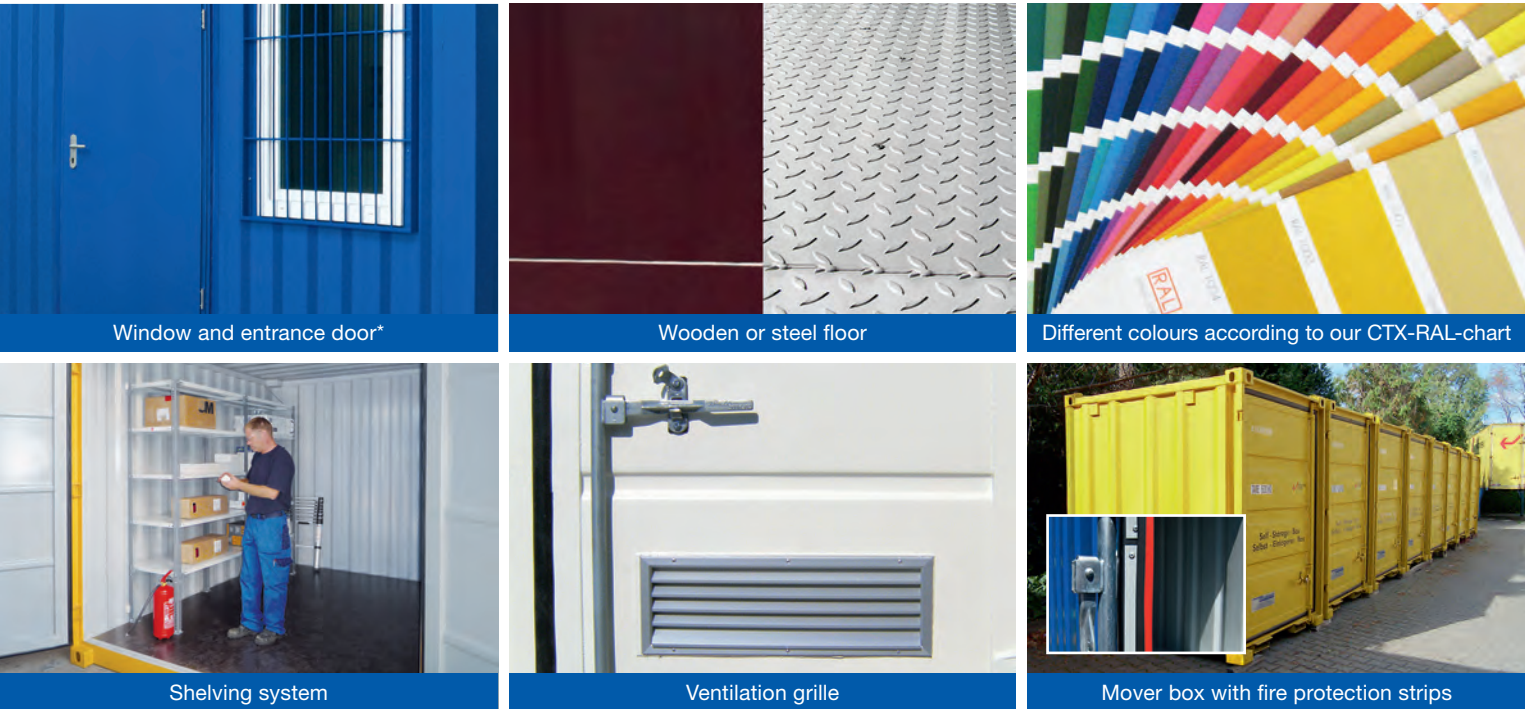

- Recessed CEE connections
- Damp room electrics
- 1 x 400 V power outlet
- 2 x 230 V sockets
- Light fittings
- Light switch in the door
- Ideally combined with window and additional entrance door*

*Window and additional entrance door only available with types 10' and 20'

LC 20' window and entrance door

Additional equipment options

Optimising transport costs by delivering in a set

DIMENSIONS (mm) AND WEIGHTS (kg):

TYPE	EXTERIOR			INTERIOR			Weight	CAPACITY (m³)
	Length	Width	Height	Length	Width	Height		
LC 6'	1,980	1,950	1,910	1,800	1,860	1,730	450	6,66
LC 8'	2,438	2,200	2,260	2,275	2,106	2,050	630	9,82
LC 9'	2,931	2,200	2,260	2,770	2,106	2,050	690	11,96
LC 10'	2,991	2,438	2,591	2,831	2,344	2,376	825	15,76
LC 15'	4,550	2,200	2,260	4,387	2,106	2,050	915	18,94
LC 20'	6,058	2,438	2,591	5,898	2,344	2,376	1,270	32,85
Mover Box	2,200	1,600	2,445	2,040	1,500	2,200	450	6,55

* Only available for 10' and 20' storage container

Green technology

The production of the storage containers is undertaken according to strict environmental and quality standards

Green technology stands for

- Selection and use of recyclable materials
- Energy efficient and environmentally friendly production in certified, European production plants
- Below all EU emission standards thanks to modern CDC painting and powder coating
- Continuous quality inspections and environmental audits in the production plants
- Long product life

Further information on environment and quality measures undertaken by CONTAINEX can be found in the CTX-SSHE-Q-report (Safety-Security-Health-Environment-Quality). You can ask your CONTAINEX sales manager for a copy.

Shipping container

Self-storage facility

Container depot

Container - rail loading

Perfect space utilization in the warehouse

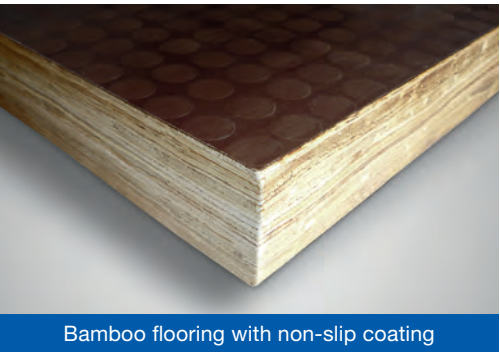

Steel plates made of Corten steel

Certified by Germanischer Lloyd

CSC plate

Bamboo flooring with non-slip coating

4-fold door locks

Burglary protection

Shipping container 20'

Shipping container 40'

Shipping container, used

Quality is in the detail

- Prompt delivery - depots throughout Europe
- High paint quality
- CSC plate for 30 to maximum weight
- 28mm plywood floor (Australia compatible) with non-slip coating
- Corten steel sheets (anti-corrosive)
- Forged and galvanised door locking bars
